

## Neuropsychological Evaluation Services

A comprehensive Neuropsychological Evaluation is the first step towards becoming more successful and empowered in your life. Evaluations are offered to **adults, adolescents, and children**. We will answer your questions and provide practical strategies and techniques that you can integrate into your daily life.

### Comprehensive Evaluation

*Are you worried about your memory, or memory lapses of a loved one?* These concerns can be related to **traumatic brain injury** such as concussions from sports, falls, accidents or **neurological disorders** such as dementia (like Alzheimer's disease), stroke, seizures, and genetic disorders. We can differentiate between typical **age-related cognitive decline** and dementia.

*Do you have questions about your child's development or emotional concerns?* We can assess for social skills and language development problems, sensory integration issues, and gross and fine motor delay. We provide **diagnostic clarification** for emotional and behavioral disturbances such as thought disorders, severe depression and anxiety, addictive behaviors and conduct problems.

### Learning Evaluation

*Are you concerned about your or your child's academic and behavioral success?* We evaluate for the presence of learning differences including **attention-deficit/hyperactivity disorder (ADHD)**, learning and reading problems (such as Dyslexia and Dysgraphia) or emotional concerns. Results from testing include diagnostic impressions as well as a list of your strengths and areas of impact. You can share your report with a Psychiatrist or with your school. We can help students receive extended time on tests (*Ex:* SAT, GRE, MCAT) as well as help you develop an IEP or 504 plan.

### Specialty Assessments

Emotional Support Animal (ESA) Letters  
*ESA is not considered a service animal under the ADA*

Career Assessments  
*Learn the career choice that is best for you*
