

## **Modern Men's Group**

The [Modern Men's Group](#) at Therapy Changes is for men who are interested in gathering together to discuss and explore how to be more purposeful, confident, and authentic.

### **Group Assumptions**

Group is a safe and nonjudgmental place for men to learn to understand themselves and their relationships better and explore ways to freely express themselves. The group is based on the following assumptions, derived from Dialectical Behavior Therapy.

1. People are doing the best they can.
2. People want to improve.
3. People need to do better, try harder, and be more motivated to change.
4. People may not have caused all their problems, but they must solve them anyway.
5. New behavior must be learned in all relevant contexts.
6. All behaviors are caused.
7. Figuring out and changing the causes of behavior works better than judging and blaming.
