PROFESSIONAL LICENSES AND CERTIFICATIONS

1. **Board Certified in Clinical Psychology:** American Board of Professional Psychology

2. **Clinical Psychologist:** California
   License number PSY 21370

3. **Basic Life Support:** Health Care Provider
   American Heart Association

4. **Commercial Pilot:** (instrument rating), single-engine land aircraft

PROFESSIONAL POSITIONS

1. **Clinical Psychologist** June 2026 – present
   Therapy Changes
   San Diego, CA

   As a board-certified clinical psychologist, provide evidence-based, culturally sensitive and trauma informed clinical and health psychology evaluation, assessment and treatment for patients referred to Therapy Changes.

2. **Lecturer** Jan 2012 – present
   San Diego State University
   San Diego, CA

   Teach original upper division Psychology department courses fall, spring and summer semesters. Course size has ranged from 45 in *Field Placement* to 500 in *Psychopathology.*
   - *Stress, Trauma and the Psychological Experience of Combat*
   - *Health Psychology*
   - *Psychopathology*
   - *Field Placement in Psychology*
   - *Infant and Child Development*
   - *Health, Happiness and Academic Success*

   Psi Chi *Undergraduate Teaching Award*, academic year 2023/2024.
   Faculty advisor for the Student Veteran Organization, 2017-2020.

3. **Chief Clinical Officer**
   Psych/Armor Jan 2015 - present
   San Diego, CA

   Psych/Armor is a national non-profit organization with a mission to provide culturally relevant, trauma-informed training, consultation and resources to those who support the military-connected community -- specifically healthcare providers, employers, educators, volunteers and caregivers.
   - As Chief Clinical Officer, member of executive leadership team for the organization, answering to the CEO and Board of Directors.
   - Provide clinical oversight on all course material, and liaison with clinical and medical subject matter experts.
   - Responsible for all clinical content for online and live training. Final approval for clinically appropriate curriculum and military cultural humility. Lead writer and trainer for all content related to healthcare providers, including a robust line of work in lethal means safety training for medical personnel.
   - Provide virtual and in person training for healthcare systems, corporations, organizations and university groups on military culture, leadership, compassion

fatigue, resilience, suicide prevention, invisible wounds of military service, and many other subjects.

- Author and lead trainer for Fifteen Things Veterans Want You to Know, Psych/Armor's marquee course on military cultural awareness.

4. **Senior Clinical Psychologist**
   Naval Health Research Center / Leidos Sept 2013 – Aug 2016
   San Diego, CA.

   Lead clinical psychologist for the Biobehavioral Sciences Laboratory at the Naval Health Research Center in San Diego. Primary focus in behavioral medicine, clinical psychology and fleet liaison support of several psychological health research studies and applied interventions for Navy and Marine Corps personnel.

   - Projects included Naval Unit Behavioral Health Assessment Survey (NUBHNAS) and EOD Health. Invited peer reviewer for Journal of Women's Health and Military Medicine.

5. **Lecturer**
   University of Southern California
   School of Social Work Aug 2014 – Dec 2016

   Taught one Master of Social Work course*: Clinical Services for Military Members and Veterans.*

6. **Staff Clinical Psychologist**
   Naval Hospital Camp Pendleton April 2010 – Jul 2015

   Staff clinical psychologist one day per week in the mental health clinic at Camp Pendleton.

   - Specializing in PTSD and psychological trauma, provided weekly supervision in operational psychology to post-doctoral psychologists and civilian providers.
   - Provided treatment of combat trauma in active-duty service members as required.

7. **Clinical psychology and outreach consultant**
   Jan 2007 – Sept 2013

   U.S. Navy Bureau of Medicine and Surgery
   Science Applications International Corporation
   San Diego, CA.

   Clinical and education/outreach consultant for the US Navy Bureau of Medicine and Surgery's Combat/Operational Stress Control directorate (COSC). COSC focuses on the mitigation of combat and operational stress and PTSD in Naval personnel. Primary focus on providing outreach and education through public speaking venues to medical personnel and active duty leaders.

   - As an established ambassador of Navy Medicine's message, provided outreach and education to other communities, including Navy and Marine Corps line units, military

auxiliary family and care providers, VA, Tricare and civilian medical providers, and other civilian groups as requested through invited public speaking venues.

- Consultant to Marine Corps and Navy leadership on matters of combat stress and suicide prevention. Consultant on multiple coordinated efforts for research in the area of de-stigmatization of mental health treatment for combat stress. **Over five years, provided invited presentations for over 350 audiences and more than 37,000 people.**

8. Lecturer Aug 2007 – Dec 2007
University of San Diego; San Diego, CA
Taught upper-division undergraduate level course in Health Psychology.

9. Director, Monitoring and Evaluation March 2005 – Jan 2007
Department of Defense HIV/AIDS Prevention Program
Research Triangle Institute International
Naval Health Research Center, San Diego, CA.

One of five U.S. Government agency partners in the $15 billion President's Emergency Plan for AIDS Relief (PEPFAR), the Department of Defense(DoD) managed and implemented HIV prevention, care and treatment programs in the militaries of 67 countries in sub-Saharan Africa and worldwide.

- As a Navy contractor assigned to the DoD HIV/AIDS Prevention Program, responsible for all aspects of monitoring and evaluation for the program, over $35 million in fiscal year 2005. As a DoD liaison for PEPFAR, represented DoD at the Office of the Global AIDS Coordinator (OGAC) for multi-agency deputy principal-level policy meetings.
- Represented DoD as a representative on four OGAC technical working groups, including working groups focused on Prevention Strategies in the General Population, Monitoring and Evaluation Capacity Building, Indicators and Reporting, and Strategic Information.

10. US Navy Active Duty
Officer in Charge, Combat Stress Platoon February 2004 - Sept 2004
Alpha Surgical Company, 1st Medical Battalion
1st Marine Logistics Group, 1st Marine Expeditionary Force
Operation Iraqi Freedom II

Officer in charge, combat stress team of a forward deployed surgical company in support of the 1st Marine Expeditionary Force combat mission for Operation Iraqi Freedom II.

- With four-member team, provided mental health care for Marines, sailors and soldiers deployed to Al Anbar province, western Iraq (over 12,000 service members), often under hostile combat conditions.
- Provided emergent and routine psychiatric evaluation, treatment, inpatient hospitalization, and disposition regarding fitness for combat duty, including MEDEVAC recommendations.

- Provided critical incident debriefings for over 300 Marines, soldiers and sailors who were coping as a unit with the trauma of combat and/or loss of comrades.
- Provided bedside consultation to injured Marines pre- and post-surgery and grief supportive care for those whose fellow patients had just died.
- Traveled by convoy to another air base in the province, through hostile areas, to assess the need and establish the logistics for a mental health presence for the 5200 Marines there.
- Consultant to surgical company commander regarding trauma debriefings and supportive care for surgical company staff.
- Over the 7-month deployment, the team treated over 870 patients and returned over 93% to duty.
- Awarded the Navy and Marine Corps Commendation medal for leadership and mission accomplishment.

11. US Navy Active Duty
Staff Clinical Psychologist March 2003 – March 2005
Naval Hospital Jacksonville; Jacksonville, FL

Provided outpatient diagnosis, psychological assessment, medical board recommendations, security screenings, stress management training, fitness for duty evaluations, and individual treatment, for active duty and dependent personnel.

- Provided group and marital psychotherapy for psychopathology and behavioral medicine complaints.
- On-call mental health provider for day and night emergency care. Rotated as psychiatry ward attending provider: responsible for admissions, inpatient treatment, discharge and disposition planning.
- Department head as required.
- Mental Health representative on hospital bioethics review committee.

12. US Navy Active Duty
Deputy Program Manager September 2000 – Jan 2003
Department of Defense HIV/AIDS Prevention Program; Naval Health Research Center, San Diego, CA.

Deputy manager of the $24 million, 27-country Office of the Secretary of Defense/Health Affairs mission for HIV prevention with African militaries.

- Responsible, with the original team, for the inception of the program and its remarkable growth over 3 years to include 27 sub-Saharan African nations.
- Planning, prioritizing and execution led to significant gains in a program that is acclaimed at the highest levels of the Department of Defense, the Department of State, and Congress, with continual and increasing funding year after year.
- Served as team leader and liaison throughout Africa, often in forward deployed conditions, leading to the integration of expanded efforts for AIDS prevention in foreign militaries by establishing resource allocation to the countries having the greatest need. Built and maintained critical relationships with U.S. Ambassadors and

Defense Attaches, foreign Ministers of Defense and Health, as well as medical and line officers in many African military forces.

- Awarded the Navy/Marine Corps Commendation medal for leadership and mission accomplishment. Awarded Humanitarian Service Medal.

13. US Navy Active Duty
Aviation Psychologist May 1999 – September 2000
Naval Health Research Center, San Diego, CA

Principal investigator for Headquarters Marine Corps evaluation of the Department of the Navy suicide prevention video/training package.

- Associate investigator on multiple operational research studies, including interventions for heavy alcohol use among Marines deploying to Okinawa and for unplanned pregnancy/STD acquisition among female Marine recruits at Marine Corps Recruit Depot, Parris Island.
- Associate investigator for the development of a video game used as a vehicle for education on illegal drugs for the Marine Corps. Responsible for post-intervention focus groups with Marines in all studies. Associate investigator for an Office of Naval Research proposal of injury predictors aboard a nuclear aircraft carrier.

14. Lecturer August 1999 – May 2002
San Diego State University; San Diego, CA.

Taught upper division undergraduate level course in Health Psychology.

15. US Navy Active Duty
Clinical Psychologist
Naval Medical Center, San Diego November 1999 – Jan 2003

Provided patient care in the Health Psychology Clinic. Interviewed and evaluated patients with a variety of behavioral medicine complaints, wrote consultation reports, made recommendations for treatment. Group and individual treatment for patients with chronic pain, headaches, infertility, and other medical psychology diagnoses.

- Created and implemented support and behavioral medicine group for Infertility Clinic at NMCSD, leading to the first-ever liaison between the departments. Scrubbed in to in-vitro fertilization procedures for pain and anxiety control at the request of the patients and reproductive endocrinologists.

16. US Navy Active Duty
Aviation Psychologist
Naval Safety Center, NAS Norfolk, VA. April 1997 - May 1999

With staff safety survey team, traveled to over 50 fleet aviation units and provided detailed analysis regarding flight surgeon involvement in safety programs, medical readiness, and command culture to Commanding Officers of each squadron.

- Produced and presented over 25 lectures for Navy and Marine Corps squadrons and Coast Guard Air Stations on aeromedical topics including stress management, vestibular/visual illusions, alcohol use, suicide prevention, fatigue, tobacco cessation, and critical incident stress debriefing for rescue units.
- Analyzed 212 Class A mishaps in Navy/Marine Corps aviation and produced summaries, aircrew profiles, and causal factors for each.

17. Adjunct Professor
Embry-Riddle Aeronautical University
Navy Campus, Norfolk, VA. 1997-1999

Taught Master's level courses in Aviation Psychology, Human Factors in Aviation, and Aviation Accident Investigation. Taught undergraduate level courses in Introduction to Psychology, Human Factors in Aviation, and Aviation Safety.

18. US Navy Active Duty
Clinical Psychology Resident
Naval Medical Center Portsmouth, VA. January 1998 - April 1999

Resident in the department of Psychology. Performed evaluations for patients referred to the outpatient clinic. Referrals included psychiatric diagnosis and recommendations for treatment, psychiatric fitness/suitability for duty, high risk duty screening, alcohol treatment follow-up, and security evaluations for members.

- Assisted the psychiatry resident on call with Emergency Room watch approximately one night every third month, participating in evaluation and treatment recommendations for psychiatric emergencies, including psychotic episodes and suicide attempts.

19. US Navy Active Duty
Aviation/Clinical Psychology Student Clinician
Naval Operational Medicine Institute,
Naval Air Station Pensacola, FL December 1996 - January 1997

Performed psychiatric evaluations, biofeedback for motion sickness, neuropsychological assessment of Navy/Marine Corps aircrew and Student Naval Aviators.

20. Clinical Psychology Intern
Duke University Medical Center, Durham, NC. July 1995 - June 1996

Consultant to heart/lung transplant teams, performed psychiatric evaluations for transplant candidates.

- Medical psychology hospital service, referrals for chronic pain, headache, rehabilitation, behavioral cardiology, OB/GYN.
- Inpatient psychiatry service, referrals for mood, anxiety, personality disorders with co-morbid chronic pain.

- Consultant to adult brain tumor team, performed psychiatric evaluations and group therapy for brain tumor patients. Neuropsychology hospital service, referrals for epilepsy, head injury and stroke.

21. Group therapist/instructor, *Healing Hearts*
Duke University Medical Center cardiac/pulmonary rehab
"Center for Living" cardiac education series, Durham, NC 1995 - 1996

Taught behavioral and medical strategies for surviving cardiac and pulmonary disease to patients and family members.

22. Graduate Teaching Assistant
San Diego State University 1994 - 1995

As a graduate student, taught two sections of undergraduate Abnormal Psychology.

23. Research Associate
University of California, San Diego Medical Center 1993-1995
Departments of Preventive Medicine and Pulmonology

Responsible for the psychological aspect of a NIH-R01 funded clinical trial in pulmonary rehabilitation. Administered all psychological testing and intake interviews and co-led the group support therapy sessions. Analyzed data on survival analysis of psychological variables with lung transplant candidates, published the finished manuscript. Published review of cardiac rehab outcomes variables, the team concept in pulmonary rehab, and presented a paper on a factor analysis of patient reported symptoms in several different medical and mental health population data sets.

24. Clinical Practicum
Veterans Administration Medical Center 1993- 1995
Department of Psychology, San Diego, CA.

Student therapist on the Pain Management/Behavioral Cardiology service. Performed individual and group therapy with patients referred for chronic pain. Provided EMG/EKG/GSR biofeedback for painful conditions and cardiac-related anxiety. Co-developed the therapist and patient manuals for a structured 10-week behavioral cardiac rehab program.

25. Clinical Practicum
Private cardiology practice; San Diego, CA 1993 - 1994

With a cardiologist, attended rounds on hospitalized patients and clinic for individual outpatient follow-up. Scrubbed in on multiple open heart surgeries, cardiac catheterization/angioplasty procedures, and observed multiple thallium treadmill tests.

26. Research Assistant 1991-1993
Project HELPS (Hypertension Exercise Lifestyle Program for Seniors); San Diego, CA.

Responsible for psychological intake interview and blood pressure monitoring for study subjects (elderly patients with mild to moderate hypertension.) Assisted with preliminary data analysis regarding the efficacy of exercise as a treatment for hypertension.

27. Student Therapist
San Diego State University Psychology Clinic 1992 – 1993

Under videotaped supervision, provided evaluation and therapy for patients with varied diagnoses, including mood and anxiety disorders, marital discord, bulimia nervosa and post-traumatic stress disorder.
